About us

BHR Design is a leading garments Buying, trading, and exporter in Bangladesh.

We provide our service to export quality garments to many reputed Customers/importers and departmental chain stores across US , E U, Russian, and Japanese markets.

We have developed long term trade relationship with most of our Customers & have earned trust in their respective markets.

We have a strong sourcing capacity to supply all kind of apparels for the Men's, Ladies, and Kids in Woven, Circular knit and Sweaters.

The journey of BHR Design Started as an All kinds of garments Supplier & buying Sourcing. From there we have decided to take on a challenge to meet the demands and challenges placed upon the garments manufacturing industry by the ever-changing and expanding domestic and international needs of our valuable clients. Now we reveal our self to understand the needs of our customers to serve the innovative changes as per the requirement of the end-users thus achieving our position being one of the nation's significant entities in the sector of 100% Export Oriented Ready-Made Garments Manufacturing Companies.

We are consistent in meeting the target of our customer's requirements and expectations by providing quality, performance, timeliness & efficient and expedient services in the most practical and cost-effective manner. We take the pride for our produced goods which are of international standard, exceeding the expectations of our clients by continuous quality improvement and being consistent in quality for our valued customers.

From the initiation of BHR Design, we have diversified our business into different unit of the apparel industry having being equipped with highly skilled merchandiser, Q.A, Sample Section & Fabrics technician and high performance machinery combined as a TEAM fully dedicated ensuring strict compliance in management and quality production. Maximization of Production ensuring highest quality & quantity is the prime goal of BHR Design, thus we strive to face new challenges aligning our self with the similar pace of the latest technologies of the modern Textile & Apparel industry.
